

# OnScreen Help for Business Users to Complete Any Process Right Every time

Software Implementation or Migration does not end with the technical rollout; it is people dependent as well.

---

*Over 70% of Digital Transformation initiatives fail to deliver on the expected ROI...  
User Adoption is the #1 success factor.*

---

Common challenges associated with any major change:

- ✓ How to upskill the workforce?
- ✓ How to keep up with the pace of change?
- ✓ How to reduce resistance to change?
- ✓ How to achieve quick time to proficiency on the new system?
- ✓ How to ensure adherence to new processes?
- ✓ How to improve data quality?
- ✓ How to realize productivity gains?
- ✓ How reduce error rates and support costs?

---

*People spend 1.8 hours daily looking for info to do their job and 74.1% of organizations are concerned workforce training interrupts work hours.*

---

The training methods of yesterday do not address the needs of tomorrow.

Simplify the use of Enterprise software and ensure proper process execution with live walkthroughs directly in the application at the time of need.

**Business Users  
Are Confident to  
Complete Any  
Task with Live  
Contextual  
Walkthrough  
Help.**

*Business users follow OnScreen instructions relevant to a specific process directly in their Enterprise Application*
